

LA PERLA'S CARIBBEAN RETREAT MARINA RESIDENCES NOW FOR SALE

Amsterdam- 1/02/2008- La Perla International Living is creating the Marina Residences on a prime, waterfront area on one side of the full serviced marina within the Jolly Harbour Resort. The complex consists of three buildings in Colonial Caribbean style, with crisp white paint, shingled roofs and open verandas. Two buildings are connected by a tower that resembles a nautical lighthouse, accentuating the seaside atmosphere. Landscaped gardens with a swimming pool and other water features link and surround the buildings, and convenient parking garages will be on the ground level.

While the exterior of the Marina Residences has a solidly traditional Colonial air, the interiors are light, stylish and modern. High-quality materials, such as marble, natural stone, and beautiful hardwood are used throughout, and bathrooms and kitchens feature top-of-the-line design elements. The outdoor terraces surrounding the buildings on all sides offer fantastic views over the marina, swimming pool and gardens of the complex.

The Marina Residences offer a variety of one-to-three bedroom apartments ranging in size from 74m² with 20m² of outdoor terraces to 162m² with 35m² of terrace space. Those who buy a three-bedroom apartment have an additional, interesting option. These homes can be constructed in such a way that makes it possible, when desired, to split them into two completely self-contained units, each with its own entrance. Prices of Marina Residences start at 450.000 US Dollars.

La Perla International Living homeowners have access to convenient, on-site Hospitality Services, including housekeeping, property maintenance, pool upkeep, shopping and much more. La Perla Client Executives are also always available to help coordinate anything else you need, such as travel arrangements, administrative assistance or even a private chef for a special dinner party.
